Transforming Junk into Art: The Treasures from Trash Program

The Treasures from Trash Program is an innovative initiative by Juice Crew Media dedicated to sustainability and creativity. We take old, discarded items and transform them into beautiful, functional pieces of art and design.

The Mission

To cultivate a love for creativity and mental wellness in children. By offering a platform for imaginative play and project-based learning, we empower young individuals to develop critical thinking skills and emotional resilience. We aim to provide guidance and tips for maintaining a healthy lifestyle through a healthy mind.

What We Do

Our upcycling workshops offer hands-on sessions where participants learn to create art and functional items from trash. Through community projects, we collaboratively beautify public spaces and raise environmental awareness. Additionally, our educational programs teach principles of sustainability and creative reuse in schools and community centers.
